LOCAL IS BEST — YOU'LL LIKE IT

Look at the list below and see how many things grow and grow well right here, close to home, in Michigan. Consider the advantages to buying locally grown produce. It's fresher. It keeps your dollars closer to home. It creates new opportunities for business and employment in

your own community. It helps to sustain agriculture as a worthwhile part of the of the local economy. While we don't grow coffee and bananas there is a lot we do grow. Give our produce a try. We think you'll like it.
