Plates Galore!

So far It's been a pretty uneventful Tuesday. So I went plate-hunting!!

From the top left we have Wallpaper Plate by [Charles S. Anderson Design](#) found at [French Paper](#), Zombies Love Brains plate by [FoldedPigs](#), The Origami by [NunoStudio](#), Gothic Plate by [Thomas Paul](#) found at [Elsewares](#), Smorgas-board Plate by [Pop Ink](#) also found at [Elsewares](#), the ever-so-famous rehabilitated dishware in spider print by [Sarah Cihat](#), and finally a set of anatomically correct reproductive organ plates by [Burt Payne](#) via [Track 16 Gallery](#) in LA circa 1994.

The last three plates are not for sale but hopefully you can get your hands on some of the other wonderful dinner plates to wow your evening guests.

Happy Wednesday, friends!
