The Camp Out

The Shiny Squirrel is a great shop selling all sorts of items from artists and designers. [Here](#) I also found this great set of 4 hand painted glass plates, created as an homage to the Blue Ridge Mountains near the artists' (couldn't find his or her name?) home town. The image and background are applied with a variety of techniques to result in a smooth finish befitting the medium. The green is absolutely stunning, such a luxurious set for camping!

Sia just send me an email letting me know that the artist is [Caroline Wolfe Papocchia](#) from [Nuno Studio](#). Caroline lives and works in Brooklyn, NY. When I visited her website I discovered some more beautiful plates, like these Origami plates, available [right here](#)...{thanks Sia}
