**Digital negatives with copyrights - \$450.00**

- Burned to a DVD with written permission to reproduce photos
- We recommend ordering any prints 8x10" and larger through us for quality assurance and color correctness

**Important information about the Bride and Groom Reorder Credit and included Albums**

- The \$300.00 credit included in both packages does not have a separate cash value from the package and therefore any unused portion of the credit cannot be refunded.
- Bride and Groom must use the entire credit at one time and within 2 months of receiving original photos
- The ala carte prices that are in effect at the time the reorder is placed will be used to add up to your total credit. Example – if your reorder is turned in on June 15, 2009 and the ala carte price at that time for an 8x10 is \$14.00, then each 8x10 that you order will use up \$14.00 of your credit. As an example, you could use your credit to order 1 11x14, 11 8x10's, and 11 5x7's for a total of \$297.00 (at 2009 prices)
- Credit cannot be used on specialty services or options including but not limited to spot-color, digital touch-up, photo-art cards, albums or upgrades on wedding albums.
- The term "standard photo album" describes an album used to archive 4x5 paper photos in clear plastic sleeves, 3 on a page, and is what we prefer to place all of your original photos in for protection as well as easy viewing, sharing, and reordering. Please do not confuse this with the term "wedding album" described next. This standard album is included in every wedding package that we have with proofs.
- The term "wedding album" is used to describe a professional, fully customizable, album that holds 25 pages of 4x5" through 8x10" prints. (You can fit a maximum of 200 4x5" prints in these albums – less if you include larger sizes on each page.) You can choose from a large selection of colors, covers, pages, and mats to showcase your special day and make each page in your album unique. This type of album is included only in the "Complete" album and reorder package, but is also available ala carte.
- There are no photos included in the ala carte price of a matted wedding album. If you choose to purchase a wedding album ala carte, you would also have to order whatever sizes and reprints you would want to fit in the album.
